<b>Knowledge and understanding on:</b>	knowledge of the basic concepts of economic policy		
<b>Applying knowledge and understanding on:</b>	the ability to apply the knowledge acquired, systematically, critically and broadly connecting the concepts learned with practical experience;		
<b>Soft skills</b>	<p>Making judgements: independent judgment in relation to the organization and critical evaluation of the economic policy concepts learned,</p> <p>Communication: possession of communication skills relating to the notions of economic policy learned</p> <p>Lifelong learning skills: an adequate learning capacity of economic policy, also in the perspective of its continuous evolution and its application at national, European and international level</p>		

<b>Assessment and feedback</b>	
Methods of assessment	WRITTEN TEST
Evaluation criteria	
Criteria for assessment and attribution of the final mark	<p>a. Ability to solve problems: that is to apply what they have learned in a real situation, identifying the areas of knowledge that best allow them to face it: Students will apply to current economic reality what they have learned during the course in terms of understanding of processes and critical evaluation of economic policies</p> <p>b. Analyzing and synthesizing information: that is, acquiring, organizing and reformulating data and knowledge from different sources: Students will be encouraged to provide synthetic reports of the economic phenomena analyzed.</p> <p>c. Making judgments independently: that is, interpreting information with a critical sense and making consequent decisions: Students will be daily invited to express their judgments on current economic problems and economic policies at national and international level.</p> <p>d. Communicate effectively: i.e. transmit information and ideas in both oral and written form in a clear and formally correct way,</p>

	<p>expressing them in appropriate terms with respect to the specialist or non-specialist interlocutors in the sector: Students will be invited to prepare oral and written reports on economic topics from current reality.</p> <p>e. Continuous learning: that is, knowing how to recognize one's gaps and identify effective strategies aimed at acquiring new knowledge and skills: Students will be asked to intervene and correct their mistakes during the exercise activities.</p>
