

<b>General Information</b>	
Academic subject	Computer Lab
Degree course	
Curriculum	
ECTS credits	3
Compulsory attendance	No
Language	Italiano

<b>Subject teacher</b>	Name Surname	Mail address	SSD
	Carla Petrocelli	carla.petrocelli@uniba.it	M-STO/05

<b>ECTS credits details</b>	3		
Basic teaching activities			

<b>Class schedule</b>	
Period	Second semester
Year	II
Type of class	E-learning

<b>Time management</b>	
Hours	36
	21
Out-of-class study hours	15

<b>Academic calendar</b>	
Class begins	22 February 2021
Class ends	21 May 2021

<b>Syllabus</b>	
Prerequisites/requirements	
Expected learning outcomes (according to Dublin Descriptors) (it is recommended that they are congruent with the learning outcomes contained in A4a, A4b, A4c tables of the SUA-CdS)	The aim is to broaden digital knowledge in order to make the student autonomous in computer skills
Contents	This course will show at the student how to use a text editor and how to properly perform bibliographic research in order to make him autonomous in compiling his degree thesis.
<b>Course program</b>	
Bibliography	<a href="https://elearning.uniba.it/login/">https://elearning.uniba.it/login/</a>
Notes	
Teaching methods	E-learning
Assessment methods (indicate at least the type written, oral, other)	Test
Evaluation criteria (Explain for each expected learning outcome what a student has to know, or is able to do, and how many levels of achievement there are.	The competence acquired by the student will be evaluated by measuring his autonomy, both communicative and learning, in the field of ICT (Information and Communication Technologies). Students will have to show that they have adopted the

	skills necessary to access information and digital services, skills that are fundamental for the continuation of their studies and for autonomy in the IT field.
