----------------------------	--

<p>Contents</p>	<p>The course is concerned with the study of the contract and the inviolable rights of the human person (with a particular focus on the protection of health). The specific objective is the critical deepening of the legal issues related to the institutions indicated, in the light of the most recent guidelines of jurisprudence and the elaboration of the doctrine</p>
<p>Course program</p>	<p>A) THE CONTRACT IN GENERAL The contract between the ordering categories of civil law. The sources of contract law. The contractual model from the civil code to the civil code of '42. The new boundaries of the contract. Contractual freedom and the Constitution. The definition of the contract. Contractual autonomy and limits. The dogma of the will and its crisis. The requirements of the contract. The agreement of the parties. The option. The "problem" of the cause. The object and the shape. The preliminary contract. The contractual regulation. Contract in series, contract imposed, obligation to contract. The interpretation of the contract. The integration of the contract. The role of good faith and abuse. The effects of the contract and the contractual obligation. Imbalance in contracts and protection of the weak contractor. The remedies. The contract with the consumer. The "third" contract. Invalidity of the contract. Dissolution and modification of the bond. Maintenance remedies: the adjustment of the contract</p> <p>B) THE INVIOABLE RIGHTS OF THE PERSON Human rights: from the (minimal) vision of the civil code to the constitutional one, of the Universal Declaration of Human Rights and the EDU Convention. The fundamental right to health. The protection of the environment as a right of the person. Civil protection: preventive and inhibitory as well as compensatory. Immissions and health protection. The precautionary principle: civil reflexes</p>
