8			
Learning Objectives		The course will enable students to master the basic principles of the discipline, explore advanced level theories, analyze in depth international human rights law sources and practice, as well as understand the many traditional and contemporary challenges in International Human Rights Law and in International Criminal Law. Students will acquire the intellectual openness, technical expertise and critical thinking abilities that are necessary to respond effectively to professional challenges and to deal with both case work and policy making.	
Course prerequisites		Basic knowledge of international law is recommended	

Teaching strategy		Lessons and seminars. Concrete situations, leading decisions of international courts and tribunals, and current doctrinal debate within the international human rights law will be addressed: Students will be expected to discuss issues and investigate topics in greater depth, through individual dissertation or team works. Students will be encouraged to engage directly with primary legal materials as well as advanced scholarly works, to develop and employ enhanced research skills by using traditional library sources involving books, journals and case reports, modern electronic facilities such as online databases and internet resources and multimedia, to develop the ability to critically assess as well as learning to engage in creative and critical thinking and writing.
Expected learning outcomes in terms of		

Knowledge and understanding on:	<ul style="list-style-type: none"> ○ Ability to engage directly with primary legal materials as well as advanced scholarly works, and to critically assess leading decisions of international courts and tribunals, and the contribution that these decisions have made to the development of the discipline
Applying knowledge and understanding on:	<ul style="list-style-type: none"> ○ Practical application of the acquired knowledge and understanding through examination of contemporary issues and situations of importance in international human rights law and case studies
Soft skills	<ul style="list-style-type: none"> - <i>Making informed judgments and choices:</i> identify the rules of International Human Rights Law, critically evaluate and analyze them, and apply them appropriately to solve problems. - <i>Communicating knowledge and understanding:</i> present information and explanations to an audience, through the written or oral mode of communication accurately and through an appropriate and technical language. - <i>Capacities to continue learning:</i> deconstruct and analyze problems or complex situations, find solutions to problems through analyses and exploration of all possibilities, using appropriate methods, resources and creativity, to respond to the intellectual and professional challenges through critical thinking and methodological knowledge.
