Department and address	Palazzo Ateneo
Virtual headquarters	
Tutoring (time and day)	Thursday, 11-13h.

Syllabus	
Learning Objectives	The course in Greek and Latin philosophy aims at forming the student's critical approach toward the history and the tradition of ancient philosophical texts and at strengthening the capacity of elaborating and evaluating data (II-IV-V Dublin Descriptors). In this regard, students will acquire knowledge and capacity of understanding with respect to the following points (I Dublin descriptor): I.1) knowledge of the ancient and late-antique philosophical and scientific thought; I.2) reading and understanding classical ancient philosophical texts in translation and possibly in the original Greek or Latin; I.3) knowledge of the philosophical vocabulary and of the proper philological approach in the analysis of the specific topics discussed within the course; I.4) acquisition of the proper methodology in historical surveys. The course also aims at creating in the students the following capacities with regard to the practical applications of the acquired knowledge (II Dublin descriptor): 2.1) elaborating data, knowledge of primary and secondary literature on a given subject, capacity of writing of an academic paper according to the internationally recognized standards; 2.2) placing ideas, concepts, texts within the frame of the different Zeitgeist (multidisciplinary approach); 2.3) reconstructing the Wirkungsgeschichte of concepts, texts, ancient philosophical doctrines; 2.4) placing concepts, texts, topics within the broader framework of the history of philosophy with emphasis on medieval philosophy; 2.5) understanding the most relevant philosophical debate in Antiquity and Late-Antiquity and the specific doctrinal differences among the main philosophical sects of the time. In the same vein, students will be able to take position within the modern debates on the topics discussed within the course.
