

General Information	
Academic subject	Psychology of Disability and School Inclusion
Degree course	Primary Teacher Education
Curriculum	
ECTS credits	8+1
Compulsory attendance	No
Language	Italian

Subject teacher	Name Surname	Mail address	SSD
	Gabrielle Coppola	gabrielle.coppola@uniba.it	M-PSI/04

ECTS credits details	8+1		
Basic teaching activities	60 hours of frontal lessons, discussion of video material and group work + 10 hours of practical exercises		

Class schedule	
Period	I SEMESTER October 2021
Year	2021 - 2022
Type of class	Lecture- workshops

Time management	
Hours measured	60 minutes
In-class study hours	60+10
Out-of-class study hours	155

Academic calendar	
Class begins	Middle of October 2021
Class ends	End of January 2022

Syllabus	
Prerequisite requirements	
Expected learning outcomes (according to Dublin Descriptors)	<p>Knowledge and understanding of the main disabilities and neurodevelopmental disorders</p> <p>Applying knowledge and understanding: 1. Capacity to read and understand a functional diagnosis and understand the psychological functioning of the child affected by a disability /neurodevelopmental disorder; 2. Capacity to project individualized psychoeducational interventions and rehabilitation strategies according to each type of disability/neurodevelopmental disorder</p> <p>Making informed judgements and choices: 1. capacity to observe and assess the child with disability /neurodevelopmental disorder</p>

	<p>in the daily context of the classroom; 2. Capacity to project and implement individualized psychoeducational interventions and rehabilitation strategies according to the child's needs, aiming at the promotion of the child's inclusion in the peer group and classroom context.</p> <p>Communicating knowledge and understanding: expertise in using the topic's specialized language.</p> <p>Capacities to continue learning: Capacity to project, implement and communicate individualized teaching interventions and rehabilitation strategies and test their efficacy. Ability to select opportunities and continue learning and training in relation to child disabilities/neurodevelopmental disorders and intervention strategies in the school context</p>
Contents	<p>The first part of the course will be devoted to the analysis of the conceptual framework for the understanding of at risk developmental pathways and to the main strategies of the behavioral interventions. Then, the main classification systems and the global functional diagnosis for the assessment will be described (ICD, ICIDH, ICF, DSM V).</p> <p>The second part of the course will be devoted to the analysis of the main disabilities and neurodevelopmental disorders: sensory disabilities, motor disability, intellectual disability, ADHD and behavioral disorders, learning disabilities, autism spectrum disorders. For each disability/disorder, the psychological functioning and the developmental pathways will be described as well as the main individualized teaching interventions and rehabilitation strategies to be implemented in the classroom. The 10 hours of exercise will be dedicated to the administration, scoring and interpretation of the AMOS battery. Students are required to administer selected scales to a primary school student and to produce a brief report of such experience.</p>
