<b>Learning Objectives</b>	The course aims to analyze food crises in the globalized economy: from the crisis of the European agricultural policy protectionist, to the management of production surpluses, the lack of fairness in the distribution of food between the richest and the developing countries. The resurgence of food insecurity calls for renewed reflection on the protection of social rights, from the right to food to the right to produce food, in the international context. Through the analysis of the evolution of European legislation in the field of agriculture and through the study of international, European and national sources relating to the protection of the right to food, students will gain a thorough knowledge of the sources, also in English.
<b>Course prerequisites</b>	Private Law

<b>Teaching strategie</b>	The lectures will be accompanied by oral exercises, also through the co-working, in order to stimulate students to interact with each other and acquire confidence in the use of specific legal language and achieve a critical capacity in relation to the topics covered during the course.
<b>Expected learning outcomes in terms of</b>	
<b>Knowledge and understanding on:</b>	Advanced knowledge related to the discipline on the right to food, the relationship between food and territories, public policies of agriculture and food management
<b>Applying knowledge and understanding on:</b>	Ability to appreciate the application scope of different multi-level disciplines.
<b>Soft skills</b>	<p>Making informed judgments and choices            Ability to rework the principles and rules of study in an autonomous way,            developing a critical sense and autonomy of judgment, by means of teaching tools            that stimulate discussion and participation in the classroom.</p> <ul style="list-style-type: none"> <li>• Communicating knowledge and understanding</li> </ul> <p>Ability to express the acquired knowledge with an appropriate legal language and            development of logical-argumentative skills, also by means of laboratory activities.</p> <ul style="list-style-type: none"> <li>• Capacities to continue learning</li> </ul> <p>The student will acquire ability in the research and identification of regulatory,            national, European and international sources related to the subject and will            develop the ability to read and understand the national and European            jurisprudence subject of the course.</p>
<b>Syllabus</b>
