Learning Objectives
The course aims at providing an overview of the law of aliens in international and European law, with its unavoidable consequences for domestic law. At the same time, it also aims at providing fundamental knowledge and study methods to

	understand its future developments.
Course prerequisites	As per Degree Course Rules
Teaching strategy	Frontal lessons in presence
Expected learning outcomes in terms of	
Knowledge and understanding on:	Knowledge and understanding of the issues concerning citizenship, immigration and asylum law.
Applying knowledge and understanding on:	Applied knowledge and understanding with reference to the connection between theory and practice, in a subject with high social impact, significant multidisciplinary interrelationships and subject to daily application.
Soft skills	<p>Making informed judgments and choices. At the end of the course the student should be able to have autonomy of judgement in relation to the concepts to be found in the norms of positive law, in their judicial application, applied to the socio-historical reality of the migratory phenomenon.</p> <p>Communicating knowledge and understanding. At the end of the course, the student should be able to explain the acquired knowledge in an argued manner, also in relation to the political, economic and social context in which the student intends to act.</p> <p>Capacities to continue learning. At the end of the course, the student should be able to handle the complexity of the subject matter also in its future developments, thus demonstrating an understanding of the peculiarities of the discipline covered by the course.</p>
Syllabus	
Content knowledge	Aliens and citizens. Freedom of movement between States. The aliens' entry into a State. Border controls and the Schengen Area. Maritime border control, obligations of rescue and protection of migrants at sea. Aliens' entry, movement and stay on the European Union. Entry and stay on the Italian territory.
