

General Information	
Academic subject	History of Science
Degree course	Degree in History and Social Sciences
Academic Year	2021-2022
ECTS credits	6
Compulsory attendance	No
Language	Italian

Subject teacher	Name Surname	Mail address	SSD
	Rossella De Ceglie	rossella.deceglie@uniba.it	M/STO-05

ECTS credits details			
Basic teaching activities	M/STO-05		

Class schedule	
Period	First Semester
Year	Third
Type of class	Lecture- workshops

Time management	
Hours	150
In-class study hours	42
Out-of-class study hours	150

Academic calendar	
Class begins	September 27, 2021
Class ends	December 10, 2021

Syllabus	
Prerequisites/requirements	No specific requirements
Expected learning outcomes (according to Dublin Descriptors)	<p><i>Knowledge and understanding</i> General knowledge of the themes and methodology of the history of science</p> <p><i>Applying knowledge and understanding</i> Knowledge and ability to understand and use the tools for research in the history of science</p> <p><i>Making informed judgements and choices</i> Autonomy of judgment in the interpretation of information</p> <p><i>Communicating knowledge and understanding</i> Linguistic and methodological skills capable of transmitting knowledge effectively</p> <p><i>Capacities to continue learning</i> Autonomous ability to learn the themes and concepts of the history of science</p>
Contents	The course intends to examine how, starting from the Scientific Revolution of the Sixteenth and Seventeenth centuries, the idea of the Earth, of man's place in nature and his relationship with it has changed. Particular attention will be paid to issues relating to the birth, developments and implications of evolutionary theory.
Course program	
Bibliography	– BYNUM W., Breve storia della nuova scienza, Salani, 2015

	– CORSI P. (a cura di), Charles Darwin. Antologia di testi, Carocci, 2019
