Scientific Director: prof. Giovanni Lagioia, Director of Department of Economics, Management and Business Law (UNIBA)

PARTICIPANTS: N. 40 national and international university students, graduates, PhD students and PhDs, workers, professionals and employees of public and private institutions

CFU: 4 CFU

The Summer School, organized by the University of Bari Aldo Moro, is based on the growing economic, social and environmental concern towards **sustainable business models**. The course will try to introduce national and international best practices towards economic and industrial sustainability on the following topics: **circular economy, sustainable finance, "end-of-waste" framework and industrial symbiosis**. In particular, the course will deal with such themes in **Apulia region and Mediterranean area**. Qualified Italian and foreign professors and researchers will take part to the school and will be supported by the experience of the project partners.
