

Regional Economics

Programme of Regional Economics
Faculty of Economics, University of Bari,
CFU n. 6
Prof. M.A. Valleri

Programme of the course

The course aims to provide students with the basic theoretical concepts of Regional Economy, the location of production activities and regional growth. It discusses, subsequently, the problem of development at the local level, focusing on the productive decentralization and territorial development.

Lectures:

- **R. Capello, Regional Economics – Routledge, 2007**
- **M. Valleri-S. Caragnano, Appunti teorici e pratici di programmazione locale e regionale, Franco Angeli Milano, 2007**
