

General Information	
Academic subject	Economics of Transport Mobility
Degree course	Master's Degree in Statistics and Quantitative Methods for Economics and Finance
Curriculum	
ECTS credits	6
Compulsory attendance	No
Language	Italian/English

Subject teacher	Name Surname	Mail address	SSD
	Elisabetta Venezia	elisabetta.venezia@uniba.it	SECS-P/06

ECTS credits details			
Basic teaching activities			

Class schedule	
Period	1st semester
Year	2020-2021
Type of class	Lecture

Time management	
Hours	150
In-class study hours	42
Out-of-class study hours	108

Academic calendar	
Class begins	October 2020
Class ends	December 2020

Syllabus	
Prerequisites/requirements	
Expected learning outcomes (according to Dublin Descriptors) (it is recommended that they are congruent with the learning outcomes contained in A4a, A4b, A4c tables of the SUA-CdS)	<p><i>Knowledge and understanding</i></p> <p><i>Applying knowledge and understanding</i></p> <p><i>Making informed judgements and choices</i></p> <p><i>Communicating knowledge and understanding</i></p> <p><i>Capacities to continue learning</i></p>
Contents	<ul style="list-style-type: none"> • The object of the Economics of transport mobility • The demand for mobility • The modal choices of firms • The system of sustainable mobility • The tools of sustainable mobility • External factors influencing mobility • Public choices and mobility.

Course program	
Bibliography	<ul style="list-style-type: none"> • European Environment Agency (2016), Transitions towards a more sustainable mobility system, TERM 2016: Transport indicators tracking progress towards environmental targets in Europe, EEA Report No 34/2016 (free download) • OECD (2017), ITF Transport Outlook 2017 (free download) • Musso E.-Burlando, C. (1999), Economia della mobilità urbana, Utet, Torino. <p>English and updated books are available on request.</p>
Notes	
Teaching methods	Frontal lessons
Assessment methods (indicate at least the type written, oral, other)	Oral
Evaluation criteria (Explain for each expected learning outcome what a student has to know, or is able to do, and how many levels of achievement there are.	<p>The final exam, taken at the end of the semester year, certifies that a student has reached his graduation goal, based on students' levels upon beginning of their studies. The graduation goal is defined as the minimum level a student is expected to reach before graduation. Students must demonstrate good appreciation of the subject matter including, where appropriate, methodological and technical skills.</p> <p>Students that do not pass their final exam can re-take it according to schedules set by the University.</p> <p>Oral exams take place during regular exam sessions and are published on the academic calendar. At the end of the oral exam, students will receive a grade, expressed in thirtieths, as well as credits and a certification of their level.</p>
