

<b>Project Title</b>	Earthquake disasters management integrated system
<b>Project Acronym</b>	ERMIS
<b>Priority Axis</b>	
<b>Specific Objective</b>	 2.2 Improvement of joint management and governance plans for biodiversity of coastal and rural ecosystems, paying attention on natural resources and protected areas and development of environmental protection measures
<b>Lead Beneficiary (LB)</b>	Region of Epirus
<b>Project Partner 2</b>	University of Ioannina
<b>Project Partner 3</b>	Apulia Region - Civil Protection Section
<b>Project Partner 4</b>	University of Bari – Dpt. DISAAT
<b>Objectives of the project</b>	The Project proposes the development of an integrated disaster management system with the establishment and training of voluntary Emergency Response Teams in both the areas of Epirus and Puglia.
<b>Expected Results</b>	Risk prevention and management of non-climate related natural risks (and in particular earthquakes) through the development of an Earthquake disasters management integrated system.
<b>Output UniBa</b>	The University of Bari promotes and coordinates research activities at national and international levels to develop, disseminate and exploit the results of scientific research. The scientific activity falls in the following topic areas: (a) structure and dynamics of forest ecosystems; (b) silvicultural management and wildfires prevention; (c) productivity and management of rural and environmental resources; (d) ecosystem services and applications; (e) techniques for inventory, monitoring and land analyzing; (f) sustainable planning and management; (g) ecological planning; (h) map production methodologies and implementation of procedures for collecting and processing data.
<b>Total Project Budget</b>	900.340,00
<b>Total Budget UniBa</b>	132.000,00
