

Le attività di insegnamento del Prof. Massimiliano Mazzone  
si terranno presso le aule del LaboBiotech in Via Fanelli

### **SEMINARS IN CANCER (30 h)**

This cancer lecture series is expected to provide PhD students and post docs with cutting-edge knowledge in the field of oncological research, with particular attention to cancer-stroma cross talk mechanisms and the most recent advances in tumor models for research and therapeutical approaches for cure.

#### **Calendar**

**Cancer immunity and immunotherapy-** July 1st 2019- h 15.00-19.00

**Role of immune cells in vessel formation in cancer-** July 2nd 2019- h 15.00-19.00

**The role of hypoxia in cancer-** July 4th 2019- h 15.00-19.00

**Advances in cancer study models –** July 5th 2019- h 15.00-19.00

**Transgenesis and vectorology-** 9th Luglio 2019- h 15.00-19.00

**The multifaceted role of metabolism in cancer (part 1)-** 10th Luglio 2019- h 15.00-19.00

**The multifaceted role of metabolism in cancer (part 2)-** 11th Luglio 2019- h 9.00-12.00

**The multifaceted role of metabolism in cancer (part 3)--** 11th Luglio 2019- h 15.00-18.00
