COURSES: 1) Physical Chemistry II (Degree in Chemistry)
2) Advanced Physical Chemistry (Master Degree in Chemical Sciences) I
3) Physical Chemistry (Degree in Chemistry and Pharmaceutical Technology)

1. RESEARCH AND INTERNATIONAL ACTIVITY

Areas of scientific interest: •

Molecular organization of photosynthetic pigments, peptides and protein complexes in biomimetic systems.

Preparation and characterization of lipid and polymer based nanocarriers for delivery of bioactive molecules

Preparation and characterization of lipid systems containing fluorescent nanocrystals for applications in bioimaging field

International Activities: collaboration with research groups located in other European countries; publication and involvement as a reviewer for several international chemistry and biochemistry journals.

European projects:

Erasmus programme:
