Cultural and Environmental Heritage Law's teaching program (academic year 2014/2015)

(Prof. Mastrodonato Giovanna)

University of Bari "Aldo Moro"

I Faculty of Economics

EGAST Degree course

Entry requirements

To have taken at least one examination in Public Law doctrine (Public Law, Administrative Law, Administrative Law Principles, Economics Public Law).

Course aims

The aims of this course are primarily related to the knowledge of the regulations offered by the legal system for the protection and for the upgrading of cultural and environmental heritage, also in the light of the European Union Law and of the main International Conventions.

Program

The evolution of the cultural heritage concept in Italian Law

The protection and the upgrading of cultural heritage in the Legislative Decree No.42 of January 22nd 2004, the so-called "Urbani Code"

The sharing of competencies between the State and the Regions

The landscape protection: the landscape planning

European environmental law

Constitutional principles of environmental protection and Legislative Decree no.152 of April 3rd 2006

Economic instruments to protect environment: EMAS and Ecolabel
