Course of Contract law and technique (a.a. 2016-2017)
(Prof. Tatarano Marco)

Università degli Studi di Bari Aldo Moro
BA **Business Professional Consulting**

Admission criteria

The course requires knowledge of fundamental elements of the contract.

Aims of the course

The class, theoretical and practical at the same time, intends to give students technical and legal instruments useful to analyze laws, judgments and author's interpretations about contracts, and also to draw up contracts.

Course outline

Then the class is articulated in two sections: an introductory one, based on the study of civil law about contracts in general, paying specific attention to their closing, effects and pathologies, and a special one, where single contracts shall be examined.
