

**Calendar of the teaching program of Prof. D. Modrý**

Full Professor in Parasitology at the Pathology and Parasitology Department, University of Veterinary and Pharmaceutical Sciences Brno, Czech Republic  
Director of Vétérinaires sand Frontières (VSF) Czech Republic

**Lecture subject:** Infectious diseases of wildlife and exotic animals and their zoonotic potential

<b>Date</b>	<b>Lectures</b>	<b>Time</b>
10.06.2019	Emerging infectious diseases as a threat for biodiversity	11.30 – 13.30
14.06.2019	<i>Angiostrongylus cantonensis</i> : an emerging pathogen and master of opportunism	9.30-10.30
17.06.2019	Diagnostic parasitology in primates: practical lab	9.30 - 11.00
	Clinical parasitology of reptiles in captivity Parasites as forensic tool in investigations of wildlife trafficking	14.00 – 16.00
18.06.2019	Parasites of primates with zoonotic importance: how much do we share?  Next generation sequencing/metabarcoding as a tool for tracking the transmissions of zoonotic pathogens	9.30 - 11.00
11.11.2019	Parasites and clinical parasitology of hedgehogs	14:30-17:30

12.11.2019	Toxoplasma gondii – a master of opportunism	9:30-12:30
13.11.2019	Coccidia and coccidiosis	14:30-17:30
14.11.2019	Parasites and clinical parasitology in birds of prey	14:30-17:30
