General Information	
Academic subject	Economics
Degree course	Socio-economic organization of the rural enterprise
Curriculum	Sustainable management of the mediterranean countryside
ECTS credits	6
Compulsory attendance	No
Language	Italian

Subject teacher	Name Surname	Mail address	SSD
	Arturo Casieri	Arturo.casieri@uniba.it	Agr01
ECTS credits details			
Basic teaching activities	4 ECT for	2ECT practices	

lecture

Class schedule	
Period	Second semester
Year	First
Type of class	Lecture- workshops

Time management	
Hours	150
In-class study hours	60
Out-of-class study hours	90

Academic calendar		
Class begins	5th March, 2018	
Class ends	22nd June, 2018	

Syllabus	
Prerequisites/requirements	
Expected learning outcomes	Knowledge and understanding Knowledge of the organizational modalities of agricultural enterprises Applying knowledge and understanding o Ability to formulate organizational strategies to diversify sources of income; o Ability to analyze social context and the rural area in which the agricultural and forestry enterprise operates; o Apply organizational strategies to diversify sources of income Making informed judgements and choices Ability to correctly orient the search for suitable solutions to create value in the realization of agri-forestry and environmental products and services; Communicating knowledge and understanding Capacity to explain value creation activities through diversification of business activities with appropriate vocabulary to work in multidisciplinary teams; Capacities to continue learning Ability to deepen and update their knowledge of the dynamics of rural contexts and the evolution of the organizational

Contents Basic principles of economic organization Transaction costs Theoretical forms of corporate governance: market, contracts, hierarchy, democracy Value creation models Basic principles of social organization Relationship Sociology Social economy The multifunctional rural enterprise Legal, economic and social basis Forms of governance and value creation: deepening, repositioning, enlargement Social Responsibility of Rural Enterprises Basic principles of economic organization Transaction costs Theoretical forms of corporate governance: market, contracts, hierarchy, democracy Value creation models Basic principles of social organization Relationship Sociology Social economy The multifunctional rural enterprise Legal, economic and social basis Forms of governance and value creation: deepening, repositioning, enlargement Social Responsibility of the Rural Enterprise Legal, economic and social basis Forms of governance and value creation: deepening, repositioning, enlargement Social Responsibility of the Rural Enterprise P. oral test will focus on the topics developed during the		oral test will focus on the topics developed during the

theoretical and theoretical lessons in the classroom and in the laboratory following the date of the exam. The outcome of this test is the evaluation of the profit test and is valid for one academic year. The exam consists of an oral test on the topics developed during the theoretical and theoretical lessons in classroom and in the laboratory as reported in the Teaching Regulations of the Master Degree Course on Sustainable Management and Sustainable Development of Mediterranean Rural Systems (Art.9) and in the study plan (Annex A). The assessment of the student's preparation takes place on the basis of established criteria, as detailed in Annex A of the Teaching Regulations of the Master Degree Course. For students who have supported exoneration, the assessment of the profit test is expressed as the average between the vote on the exoneration and the profit test. Foreign students' profitability exam can be made in English by preparing a written report. Evaluation criteria (Explain for each Knowledge and understanding skills expected learning outcome what a student o Describe how to implement the diversification strategy in has to know, or is able to do, and how the agricultural and forestry sector; many levels of achievement there are. Knowledge and understanding skills applied o Describe how socio-economic analysis of the rural area is carried out: o Describe how the socio-economic impact of diversification of agricultural and forestry activities is assessed; Autonomy of judgment o Find suitable solutions to correctly target the search for suitable solutions to create value in the realization of agriforestry and environmental products and services; Communicative Skills o Describe value creation activities for diversifying business activities with appropriate vocabulary to work in multidisciplinary teams; · Ability to learn o Describe methodically their knowledge of the dynamics of rural contexts and the evolution of the organizational structures of agricultural and forestry companies Further information
