1. Format and Type Fonts

Use Microsoft Word. These instructions are to be followed strictly, and it is strongly advised to use the styles indicated in this document in between square brackets. Do NOT add Headers or Footers.

1.2 Type font and type size

[Style: Normal]

Prescribed font is Times New Roman, 10 points, with single spacing, 1 column. However, if your text contains complicated mathematical expressions or chemical formulae, you may need to increase the line spacing. Running text should be justified.

The title of the paper should be in Times New Roman, Bold, 14 pt, Centred, with 30 pt before and 6 pts after the paragraph

[Style: Title]

The authors and affiliation should be typed in 10 pt. Times New Roman, Centred

2.2 Tables

Set table number (Bold) and title flush (Italic) left above table, with 15 pt before and 6 pts after between text and table. To distinguish tables from the main text, use a smaller type font (Times New Roman, Italic, 9 pt). Horizontal lines should be placed above and below table headings, above the subheadings and at the bottom of the table above any notes. Vertical lines should be avoided.

Position tables at the top or bottom of a page.

2.3 Captions

Figure captions should be placed near each illustration, font Times New Roman, Italic, 9 pts, with 15 pt between caption and text and 15 pts between text and top of the figure. Figures and figure captions should be placed flush-left; two narrow figures may be placed side-by-side.

3. References or Selected References

Citations in your text should be collected at the end of your manuscript in a list of References. They should be prepared according to the Harvard style (name/year system) Make sure that your accumulated list corresponds to the citations made in the text body and that all material mentioned is generally available to the reader.

Harvard system (name/year system)

Reference in the text to literature cited is given by the surname of the author(s) followed by the year of publication, e.g. "Smith (1984) has reported ..., which was recently confirmed (Jackson and Sharp, 1986, p. 19)." For references with more than two authors, text citations should be shortened to the first author followed by "et al.". However, in the list of References the names and initials of all authors should be mentioned. Two or more references by the same author published in the same year are differentiated by the letters a, b, c, etc. immediately after the year. The references should be listed in alphabetical order in the list of References.
