LAUREA MAGISTRALE IN  
MEDICINA DELLE PIANTE  
INTERNATIONAL JOINT MASTER DEGREE IN  
PLANT MEDICINE

General Information	
Academic subject	Advanced vegetable and floriculture crops (Module of Plant productions)
Degree course	Master degree in Plant Medicine (LM69)
Curriculum	
ECTS credits	3
Compulsory attendance	No
Language	Italian

Subject teacher	Name Surname	Mail address	SSD
	Pietro Santamaria	pietro.santamaria@uniba.it	AGR/04

ECTS credits details			
Basic teaching activities	Crop production		

Class schedule	
Period	First semester
Year	First year
Type of class	Lectures 2 ECTS (16 hours) Laboratory and field classroom and workshops, 1 ECTS (14 hours)

Time management	
Hours	75
In-class study hours	30 (16 Lectures + 14 Lab & field cl.)
Out-of-class study hours	45

Academic calendar	
Class begins	March 2, 2020
Class ends	June 12, 2020

Syllabus	
Prerequisites/requirements	"Agronomy" and "Vegetable and floriculture crops" requests for admission to the Master course.
Expected learning outcomes	<ul style="list-style-type: none"> <li>• <i>Knowledge and understanding</i> <ul style="list-style-type: none"> <li>○ Knowledge of design and sustainable management of integrated production of crops and vegetable and floriculture products to improve the qualitative, quantitative and sanitary aspects of production, post-harvest and marketing.</li> </ul> </li> <li>• <i>Applying knowledge and understanding</i> <ul style="list-style-type: none"> <li>○ Ability in innovative design and management of integrated crop production (ICM) and vegetable and floriculture products to improve the qualitative, quantitative and sanitary aspects of vegetable and floricultural yield, post-harvest and marketing.</li> </ul> </li> <li>• <i>Making informed judgements and choices</i> <ul style="list-style-type: none"> <li>○ Ability to analyze the different situations of a production and</li> </ul> </li> </ul>

Notes	<p>All texts are recommended for further reading.</p> <p>To study, students will be able to use lesson notes and shared documents on Dropbox' platform.</p>
Teaching methods	<p>Lectures will be presented through PC assisted tools (Power Point).</p> <p>The course will also be managed with a series of electronic documents (pdf of the lesson, scientific publications for in-depth study and questions for self-assessment).</p>
Assessment methods (indicate at least the type written, oral, other)	<p>Oral</p>
Evaluation criteria (Explain for each expected learning outcome what a student has to know, or is able to do, and how many levels of achievement there are.	<p>For students enrolled in the year in which the teaching is done, there will be a midterm exam as oral test. The evaluation is expressed in thirtieths and the achievement of a minimum grade of 18/30 is needed. The mark of the midterm exam contributes proportionally to the ECTS to the final evaluation of the exam, but only within one academic year. According to the common calendar for the course of study, students can take the exemption on the first part of the</p>
