

## Allegato 2. Tematiche

N° tematica	WP	Tasks	Titolo Tematica	Dotazione finanziaria prevista
1	WP 6	Task 6.1	Collection, analysis and exploitation of data for vulnerability evaluation and health monitoring	240 k€
2	WP 6	Task 6.2	State-dependent vulnerability assessment of structures and infrastructures, including nonstructural components and accounting for ageing, degradation and damage accumulation)	360k€
3	WP 6	Task 6.3	Innovative methods and techniques of numerical and experimental investigations to set up integrated and sustainable rehabilitation solutions for structures and infrastructure	600k€
4	WP 7	Task 7.2	Development of multihazard risk maps to define optimal and multi objective intervention strategies	200k€
5	WP 7	Task 7.3	Selection of integrated and sustainable mitigation/adaptation strategies for loss reductions	200k€
6	WP 3	Task 3.2	Experiments on volcanoclastic and sedimentary debris flows	350k€
7	WP 3	Task 3.1	Models and experiments on the tectonic and magmatic triggering conditions of explosive eruptions	350k€
8	WP7	Task 7.1	Volcanic and seismic risk imagination in word history and literature	150k€
9	WP3	Task 3.3	Generation of meshes for multiphase numerical simulation of pyroclastic density currents	150k€
