SIMULATION CENTER

The Center provides all the support equipment necessary to improve and perfect surgical techniques and technologies. In the field of healthcare, simulation is an educational tool that uses high-fidelity simulators, it also reproduces settings in a modern hospital. This space uses technology to support learning, making it possible to practice treatments and techniques that will be used in real clinical settings.

ORIENTATION SERVICES

THE ORIENTATION, TUTORING, AND JOB PLACEMENT DESK AT THE SCHOOL OF MEDICINE PROVIDES COMPREHENSIVE SERVICES FOR PRE-UNIVERSITY GUIDANCE, ACADEMIC SUPPORT, AND CAREER ENTRY PREPARATION. THESE SERVICES ARE TAILORED NOT ONLY FOR PROSPECTIVE HIGH SCHOOL STUDENTS BUT ALSO FOR CURRENT STUDENTS, AIDING IN STRUCTURING STUDY PLANS AND SELECTING INTERNSHIPS ALIGNED WITH THEIR PROFESSIONAL GOALS.

ORIENTATION OFFICE FOR FUTURE STUDENTS

The objective of incoming orientation is to encourage an informed and satisfactory choice of the study path to be undertaken.

Orientation Office for ENROLLED students

The ongoing orientation services support all enrolled students at the School of Medicine, offering guidance and support throughout their academic journey, with the aim of minimizing the average study duration and dropout rates.

JOB PLACEMENT AND CAREER SERVICES

Assisting students in transitioning smoothly into the workforce.

Graduates' orientation and job placement accompanies graduating students as they approach the job industry with the goal of minimizing the time they are unemployed.
