

STUDY IN UNIBARI

BARI AND ITS UNIVERSITY

The University of Bari, established in 1925 starting from the ancient schools of Pharmacy and Notaries, has grown to the present day. Since 2009 it is named after Aldo Moro, a student and teacher of our University. The University of Bari Aldo Moro is the oldest and largest among the Apulian universities, it has a number of students enrolled among the highest in Italy and has structures in the cities of Taranto and Brindisi. The University is composed of 23 departments and 2 schools with a wide range educational offer, research doctorates

(Ph.D), specialization schools and I and II level masters. The reception, understood as a willingness to dialogue and the provision of services, is a strong point of the University's policy. It intervenes by also providing refectories and accommodation for students. There are more and more forms of reward and incentive put in place for the most deserving and needy students. The University is located in different plexuses in the city hosting the activities of the scientific departments and the administration. The main office, a few meters from the train station and the main city streets, is located in a square of buildings that house some departments and that together constitute a real university town in the city center, the Campus Murattiano.

Bari, with its 350,000 inhabitants, overlooks the Adriatic coast and consists of two distinct parts: the old city and the new city. The first part has the characteristic medieval aspect with its main historical and artistic monuments; the new city, whose construction was started in 1813 by the decree of Gioacchino Murat, it develops following a regular chess plan. With the arrival, in 1087, of the relics of San Nicola di Mira, Bari became an important religious center. The Basilica of San Nicola, in the heart of the old city, preserves the relics of the saint who became the patron saint of the city. Bari has a mild climate that, with the many tourist-cultural attractions and beautiful beaches, is a very popular destination and a departure point to important tourist destinations a few kilometers away, such as the UNESCO sites of Alberobello, Castel del Monte, the Sassi of Matera, the baroque of Lecce, or the natural beauties of the Altopiano della Murgia and the coasts of the Gargano and Salento.

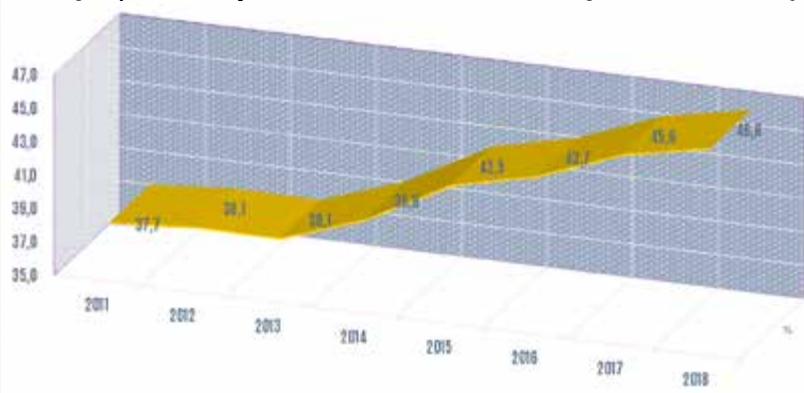

23 DEPARTMENTS	57 ^{1st} LEVEL DEGREES PROGRAM (3 years)	46 ^{2nd} LEVEL DEGREES PROGRAM (2 years)	12 SINGLE-CYCLE DEGREE PROGRAM
SCIENTIFIC TECHNOLOGICAL AREA			
Pharmacy-Drug science	Herbal sciences and technologies and health products		Pharmacy ● Pharmacy (inter-university) ● Pharmaceutical chemistry and technology
SCHOOL OF SCIENCE AND TECHNOLOGY Inter-university of physics Mathematics Earth and geo-environmental sciences Chemistry Computer science	Physics ● Material's science and technologies ● Mathematics ● Geological sciences ● Chemistry ● Environmental Sciences (Taranto) ● Computer science ● Computer science and technologies for software production ● Computer science and digital communication (Taranto)	Physics (In english) ● Mathematics ● Geological and geophysical sciences ● Material's science and technologies ● Chemical sciences ● Computer science (in English) ● Cyber Security (Taranto))	Conservation and restoration of cultural heritage
AGRICULTURAL AND VETERINARY BIOLOGICAL SCIENCES AREA			
Biology	Biological sciences ● Science of nature	Environmental biology ● Science of nature	
Biosciences, biotechnologies and biopharmaceuticals	Industrial and Agri-Food Biotechnologies ● Medical and pharmaceutical biotechnologies	Cellular and molecular biology ● Sanitary biology ● Industrial and environmental biotechnologies ● Medical biotechnologies and molecular medicine ● Nutrition Sciences for Human Health	
Veterinary medicine	Animal science	Safety of food of animal origin and health	Veterinary medicine
Agro-environmental and territorial sciences (DISAAT)	Agricultural science and technology ● Agro-forestry Environmental Science and Technology	Agricultural and Environmental Science	
Soil, plant and food sciences. (DiSSPA)	Food Science and Technology	Biotechnologies for the quality and the healthiness of nutrition ● Plant medicine ● Food sciences and technologies	
MEDICAL SCIENCES AREA			
MEDICAL SCHOOL Basic medical sciences, neurosciences and sense organs Biomedical sciences and human oncology Interdisciplinary of medicine Emergency and organ transplants	Health assistance ● Dietistic ● Professional education ● Physiotherapy ● Dental hygiene ● Nursing ● Speech and language therapy ● Orthoptic and ophthalmologic assistance ● Obstetrics ● Physical and sports activities ● Psychiatric rehabilitation techniques ● Audiometric techniques ● Audioprothesis techniques ● Environment and workplace prevention techniques ● Biomedical laboratory techniques ● Neurophysiopathology techniques ● Imaging and radiotherapy techniques medica, per immagini e radioterapia	Health professions of prevention sciences ● Motor activities and sports sciences ● Nursing and midwifery sciences	Medicine and surgery ● Medicine and surgery (in english) ● Dentistry and dental prosthesis
HUMANITIES SCIENCES AREA			
Letters, languages, arts, Italian Studies and Comparative Cultures (LELIA)	Humanities ● Modern Languages, Cultures and Literatures ● Cultures of modern languages and of tourism	Modern philology ● History of art ● Show sciences ● Modern languages and literature ● Specialised translation

SERVICES FOR STUDENTS

The University of Bari offers various services dedicated to its students with the aim of facilitating their university life. In addition to the wide **training offer**, the strength of the University of Bari is the **University librarian system**; students can easily do research and can take advantage of libraries and study rooms with wi-fi access and extended opening hours. The **Disability Service** and specific learning disorders offers personalized advice, ensuring the student the necessary tools to complete the course of study, alongside the **Service of psychological help**. Furthermore to guarantee a specific support to foreign students there is an advisory desk for the evaluation of qualifications, health care and release of residence permits and visas for international students. Foreign students can refer to the **U.O. foreign student** also to cope with more specific needs.

At the University of Bari there is also the **Eurodesk Agency** for

information services, promotion and orientation on the programs and opportunities offered from the European Union and the Council of Europe concerning student transnational mobility. The incoming and ongoing **Orientation Service** accompanies the students along the training way, at the end of which the **Placement Agency** provides them indications for entering the world of work, with the help of the innovative platform “P.Or.Ti.A.Mo V.A.L.O.R.E”, which connects institutions, companies, undergraduates and graduates. The **University Sports Center** is proud of the University of Bari, with free access for students, which encourages sports politics in the framework of the student's global education with initiation courses at sports practice and specialization (sailing, athletics, canoeing, rowing, karate, swimming, basketball, volleyball, skating, tennis, triathlon and ultimate frisbee). The University of Bari has **WebRadio** and **WebTv**, through which the university community tells its story.
