

Book chapters (12-01-15)

1-25

- 1) MORARU I, DUMITRASCU DL, **PORTINCASA P**. Use of hydrogen breath tests in the diagnosis of small intestinal bacterial overgrowth. In: Dumitrascu D, Drug V, eds. Functional and motility disorders of the gastrointestinal tract. Cluj-Napoca: Editura MedicalÆ UniversitarÆ "Hiuliu Hatieganu", 2011:349-359.
- 2) BONFRATE L, **PORTINCASA P**. Bacteria in the bowel and the Irritable bowel syndrome (IBS). In: Dumitrascu D, Drug V, eds. Functional and motility disorders of the gastrointestinal tract. Cluj-Napoca: Editura MedicalÆ UniversitarÆ "Hiuliu Hatieganu", 2011:268-275.
- 3) **PORTINCASA P**, WANG DQH. Genetic aspects in the pathogenesis of cholesterol gallstone disease. In: Foundation Czech Society of H, ed. Book of Abstract. Prague Hepatology Meeting 2010. Prague, 2010:44-49.
- 4) WANG HH, **PORTINCASA P**, WANG DQH. The nuclear hormone receptor ERalpha plays a critical role in determining estrogen-induced cholesterol gallstones. In: Keppler D, Beuers U, Leushner U, Stiehl A, Trauner M, Paumgartner G, eds. Bile Acids: Biological actions and clinical relevance. Dordrecht, The Netherlands: Springer, 2009:126-134.
- 5) BONFRATE L, **PORTINCASA P**. Microflora Intestinala, gazul si noi abordari de diagnostic. In: Rusu ML, Dumitrascu DL, eds. Probleme actuale de patologie interna. Traditie si perspective (Rumeno). Cluj-Napoca: Editura MedicalÆ UniversitarÆ "Hiuliu Hatieganu", 2009:189-202.
- 6) **PORTINCASA P**, MOSCHETTA A, PUGLISI F, WANG DQH. Medical treatment of gallstone disease. In: Borzellino G, Cordiano C, eds. Biliary lithiasis. Basic Science, Current Diagnosis and Management. Milano: Springer Italia S.r.l., 2008:149-157.
- 7) **PORTINCASA P**, MOSCHETTA A, DI-CIAULA A, PONTRELLI D, SASSO RC, WANG HH, WANG DQH. Pathophysiology of cholesterol gallstone disease. In: Borzellino G, Cordiano C, eds. Biliary lithiasis. Basic Science, Current Diagnosis and Management. Milano: Springer Italia S.r.l., 2008:19-49.
- 8) COSTIN S, MAGGIPINTO A, BERARDINO M, BONFRATE L, PALASCIANO G, **PORTINCASA P**. Assessing gastrointestinal symptoms and perception, quality of life, motility, and autonomic neuropathy in clinical studies. In: Dumitrascu D, Hotoleanu C, eds. Neurosciences: clinical application of recent knowledge. Cluj-Napoca: Editura MedicalÆ UniversitarÆ "Hiuliu Hatieganu", 2008:179-197.
- 9) WANG HH, **PORTINCASA P**, WANG DQH. Prevention of cholesterol gallstones by the potent cholesterol absorption inhibitor ezetimibe in gallstone-susceptible C57L/J mice. In: Keppler D, Beuers U, Leushner U, Stiehl A, Trauner M, Paumgartner G, eds. Bile Acids: Biological actions and clinical relevance. Dordrecht, The Netherlands: Springer, 2007:201-214.
- 10) VANBERGE-HENEGOUWEN GP, VENNEMAN NG, **PORTINCASA P**, VAN ERPECUM KJ. Prevention of gallstone-related complications with ursodeoxycholic acid. In: Adler G, Blum HE, Fuchs M, Stange EF, eds. Gallstones: pathogenesis and treatment. Dordrecht: Kluwer Academic Publishers, 2004:147-156.
- 11) GRATAGLIANO I, CARACENI P, **PORTINCASA P**, VENDEMIALE G, TREVISANI F, PALMIERI V, BERNARDI M, PALASCIANO G. Effect of food deprivation on hepatic and mitochondrial redox status and energy charge in rats with experimentally induced fatty liver: clinical implications. In: Pandalai SG, ed. Recent Research Development Nutrition. Kerala, India: Research Signpost, 2002:15-26.

- 12) MOSCHETTA A, VANBERGE-HENEGOUWEN GP, **PORTINCASA P**, VAN ERPECUM KJ, PALASCIANO G. Differential distribution of sphingomyelin and phosphatidylcholine between micellar and vesicular phases: potential implications for lipid secretion. In: vanBerge-Henegouwen GP, Keppler D, Leushner U, Paumgartner G, Stiehl A, eds. *Biology of bile acids in health and disease*. Dordrecht: Kluwer Academic Publishers, 2001:121-127.
- 13) **PORTINCASA P**, VANBERGE-HENEGOUWEN GP. Gallbladder smooth muscle function and its dysfunction in cholesterol gallstone disease. In: Afdhal N, ed. *Pathophysiology of gallstone disease*, 2000:39-64.
- 14) **PORTINCASA P**, VAN ERPECUM KJ, STOLK MFJK, VANBERGE-HENEGOUWEN GP. Role of gallbladder dysmotility in gallstone formation. In: Fromm H, Leushner U, eds. *Bile acids - cholestasis - gallstones. Advances in basic and clinical bile acid research*. Dordrecht: Kluwer Academic Publishers, 1996:180-193.
- 15) VAN DE MEEBERG PC, WOLFHAGEN FHJ, **PORTINCASA P**, STOLK MFJK, AKKERMANS LMA, SMOUT AJPM, VAN ERPECUM KJ, VANBERGE-HENEGOUWEN GP. Antroduodenal and gallbladder motility in primary sclerosing cholangitis: effect of ursodeoxycholic acid. In: Hofmann AF, Paumgartner G, Stiehl A, eds. *Bile acids in Gastroenterology: basic and clinical advances*. Dordrecht: Kluwer Academic Publishers, 1995:257-261.
- 16) STOLK MFJK, **PORTINCASA P**, VAN ERPECUM KJ, VANBERGE-HENEGOUWEN GP. Role of gallbladder motility in the pathogenesis of cholesterol gallstones. In: vanBerge-Henegouwen GP, van Hoek B, de Groote J, Matern S, Stockbrugger RW, eds. *Cholestatic liver disease. New strategies for prevention and treatment of hepatobiliary and cholestatic liver disease. Volume 1*. Dordrecht: Kluwer Academic Publishers, 1994:112-129.
- 17) RODA E, FESTI D, SOTTILI A, SANGERMANO A, COLECCHIA A, ORSINI M, WITH THE MICO, **PORTINCASA P**, PALASCIANO G. Epidemiology of gallstone disease. In: vanBerge-Henegouwen GP, van Hoek B, de Groote J, Matern S, eds. *Cholestatic liver disease. New strategies for prevention and treatment of hepatobiliary and cholestatic liver diseases*. Lancaster: Kluwer Academic Publishers, 1994:295-300.
- 18) **PORTINCASA P**, DI CIAULA A, PALMIERI V, VANBERGE-HENEGOUWEN GP, PALASCIANO G. Ultrasonographic study of gallbladder and gastric dynamics in obese people after oral cholestyramine. *Cholestatic liver diseases: new strategies for prevention and treatment of hepatobiliary and cholestatic liver diseases*. Dordrecht: Kluwer Academic Publisher, 1994:323-327.
- 19) **PORTINCASA P**, WITH THE MICO. The italian multicenter study on epidemiology and prevention of cholelithiasis (MICOL): ultrasonographic standardization. In: Capocaccia L, Ricci G, Angelico F, Angelico M, Attili AF, Lalloni L, eds. *Recent advances in epidemiology and prevention of gallstone disease*. Dordrecht: Kluwer Academic Publisher, 1991:29-35.
- 20) **PORTINCASA P**, WITH THE MICO. Prevalence of gallstone disease in 18 italian population samples. First results from the MICOL study. In: Capocaccia L, Ricci G, Angelico F, Angelico M, Attili AF, Lalloni L, eds. *Recent advances in epidemiology and prevention of gallstone disease*. Dordrecht: Kluwer Academic Publisher, 1991:37-44.
- 21) VENDEMIALE G, ALTOMARE E, TRIZIO T, GRATTAGLIANO I, **PORTINCASA P**, ALBANO O. Protective role of S-adenosylmethionine during chronic liver injury and rationale for therapy. In: Gorrod JW, Albano O, Papa S, eds. *Molecular aspects of human disease*. London: Ellis Horwood, 1989:153-163.

- 22) **PORTINCASA P**, MURPHY GM, DOWLING RH, PALASCIANO G, ALBANO O. A method proposed for the preparation of plasma membranes from myocytes of human gallbladders. In: Gorrod JW, Albano O, Papa S, eds. Molecular aspect of human disease. London: Ellis Horwood, 1988:241-249.
- 23) PALASCIANO G, **PORTINCASA P**, BALDASSARRE G, PALMIERI V, VENDEMIALE G, ALBANO O. Is an integrated study of gallbladders (GBs) from normal and gallstone patients possible ? In: Gorrod JW, Albano O, Papa S, eds. Molecular aspect of human disease. London: Ellis Horwood, 1988:241-249.
- 24) PALASCIANO G, CIRCELLA A, **PORTINCASA P**, BALDASSARRE G, ALBANO O. Choles: an expert system for the interactive learning of gallstone disease management. In: Vicary FR, ed. Computers In Gastroenterology. Berlin, Heidelberg: Springer Verlag, 1988:109-118.
- 25) ALTOMARE E, VENDEMIALE G, PALASCIANO G, **PORTINCASA P**, ALBANO O. Decrease of hepatic glutathione levels during non-alcoholic liver injury. In: Gentilini P, Dianzani MU, eds. Pathophysiology of the liver: Elsevier Science Publishers BV, 1988:131-137.
